# MESSAGE FROM THE EXECUTIVE DIRECTOR

On behalf of the Hancock Hardin Wyandot Putnam Community Action Commission Board of Directors, we are pleased to present the 2016 Annual Report.

This past year has been full of accomplishments as well as a few challenges. In late 2016, we completed our annual stakeholder survey. Through this survey, HHWP CAC achieved a net promotor score (NPS) of 82%. Most successful corporations have an NPS that is in the 50s or above. Amazon.com had a score of 76 and Apple, Inc. had a score of 71 (2012, USA). Net Promoter Score is based on a fundamental theory that respondents can be categorized into three groups (Promoters, Passives, and Detractors). According to the website [feedbacklabs.org](http://feedbacklabs.org), a recent study was conducted that concluded service recipients identified as promoters take 3 times as many steps toward their goals than detractors. This was exciting data, and we were very pleased with this score. In addition, HHWP CAC continued to make progress towards its long term vision of enhanced programming and greater community visibility. I invite you to examine the programmatic achievements that are explained in greater detail within these pages. These achievements are a testament to the hard work of all agency staff as well as the Board of Directors. Although the year also brought a few challenges, including ongoing uncertainty related to some of our fixed assets, we continue to forge ahead in our mission of reducing the conditions of poverty by providing comprehensive services to improve lives.

Joshua P. Anderson,  
Executive Director

## Looking Ahead to 2017

The recently released budget proposal from the Trump administration eliminates funding for a majority of the programs administered by HHWP CAC. Although this is highly concerning, our advocates in Washington, DC have indicated that many of the budget proposals – including the elimination of our funding – is dead on arrival in Congress. This is not the first time our network of agencies has faced strong headwinds from the federal government. We are confident that through our demonstrated capacity to provide outcome-driven services, our true value to those we serve will be recognized. We have a tremendous story to tell – one that can be backed with data that indicates our value not only to those we serve directly, but also to the general public.

In closing, we wish to recognize and thank all HHWP CAC staff, partner agencies, and stakeholders who share a common goal of improving lives in our communities. We believe that you have all played a part in our successful year!
